PROFESSIONAL SUMMARY

Frontend / Full Stack Developer with hands-on experience in building responsive and scalable web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing modern UI components, REST API integration, authentication systems, and cloud deployment. Passionate about creating clean user experiences and solving real-world problems through practical software solutions.

TECHNICAL SKILLS

Languages: JavaScript, Java, C

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST APIs, PHP

Database: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Postman, Figma, Render, Hostinger

Core Concepts: JWT Authentication, OOP, DBMS, Data Structures, API Integration

Other Technologies: ESP32, Arduino, IoT Systems

PROJECTS

QuickCart E-Commerce Application | React.js, Node.js, Express.js, MongoDB

- Developed a responsive full-stack e-commerce application with reusable React components
- Implemented authentication, product listing, cart management, and order handling features
- Integrated REST APIs for backend communication and database management
- Designed mobile-friendly UI with modern frontend development practices

Task Management System | React.js, Node.js, Express.js, MongoDB

- Built a full-stack task management platform with secure JWT authentication and protected routes
- Implemented CRUD operations for task creation, editing, deletion, and completion tracking
- Developed responsive dashboards and integrated REST APIs for real-time task handling

Portfolio Website | React.js, Node.js, MongoDB

- Designed and developed a personal portfolio website with responsive layouts and reusable components
- Integrated backend APIs and MongoDB database for contact form submissions
- Configured domain hosting and deployed frontend/backend applications on cloud platforms
- Added email functionality using Resend API for automated contact notifications

Bank Management System | Core Java

- Developed a console-based banking application implementing OOP concepts and file handling
- Simulated account management, balance operations, and transaction history features
- Designed modular class structures to improve scalability and maintainability

INTERNSHIP EXPERIENCE

Full Stack Development & UI/UX Intern | NoviTech R&D Pvt. Ltd. Nov 2025 – Dec 2025

- Developed responsive user interfaces using HTML, CSS, JavaScript, and React.js
- Assisted in backend integration and database operations using PHP and MySQL
- Created UI wireframes and prototypes using Figma

Industrial Training – Transformer Manufacturing | Voltech Pvt. Ltd. Jun 2025 – Jul 2025

- Studied transformer assembly workflows, testing procedures, and quality control systems

EDUCATION

B.E. Electrical and Electronics Engineering

2022 – Present

St. Joseph's Institute of Technology, Chennai

CGPA: 7.74

Higher Secondary (12th)

2022

Jawahar Higher Secondary School, Neyveli

Percentage: 61%

CERTIFICATIONS

- React Bootcamp — LetsUpgrade (NSDC & GDG MAD)
- Programming Foundations with JavaScript, HTML, and CSS — Duke University (Coursera)
- Data Analytics Job Simulation — Deloitte (Forage)
- Web Development Fundamentals — IBM SkillsBuild

ACHIEVEMENTS

- Developed and deployed multiple full-stack web applications using MERN stack technologies
- Built and hosted a live portfolio website with custom domain integration
- Participated in hackathons and technical project development activities

LANGUAGES

English, Tamil
